SUMMER 2024

ARMEDANGELS

This summer, the 24 Collection is all about empowering our customers to make lifestyle choices that reduce their carbon footprint while amplifying their carbon handprint. We achieve this through the creation of eco-friendly, seasonally versatile, and humorously educational designs, all crafted from sustainable, biodegradable natural fibers.

Our selection includes natural summer fabrics renowned for their delightful textures, such as linen, checked seersuckers, gingham/vichy, and light-weight cottons. These fabrics blend seamlessly with a fresh and uplifting color palette, which complements the Spring 24 foundation.
